

This month started with the second week of work experience I have to do this year. There will be one more week of work experience after the Easter break. The work experience took place from the 6th to the 9th of February. It was only a four day week this time because the Monday was a Bank Holiday for everyone. We therefore had a long weekend. As I already mentioned in my last report I did my work experience in a pharmacy in Bray called Hilton's. I had to be there everyday from 9am to 3pm and I had a 1 hour lunch brake. The people working there were very kind and tried to show me as much possible. At the beginning I had to check in orders and I checked the invoices. I also put the stock away and helped fill the prescription trays or I watched the pharmacist preparing the prescriptions. I really enjoyed the four days I spend there because it was very interesting and I learned many things about the work a pharmacist does everyday.

One weekend I went with my friend to the Musical of her host sister. She's attending a different school than we do but we see each other every weekend. The school is a girls only school and therefore all the actors were female. It was funny when they dressed up as men. The musical told the story about a girls band from Liverpool getting very famous. It was a really good musical and we enjoyed watching it.

On the last weekend of February the weather was very good so I met two friends from my class and we climbed up to Bray Head. They are both Spanish but they tried to speak English all the time

so I could understand everything. We had a good time and enjoyed the stunning view when we reached the top.

In the last week of February the second out of three assessment weeks took place as it was the end if term 2. We had an exam in Math, science and LSI, which is the subject for the international students to improve their English. For other subjects like Business, Religion or music we had projects to do. We for example had to do a PowerPoint presentation about a topic the teacher gave us or we had to create background music and sound effects for a video clip.

On the 13th of February we had pancakes for dinner because it was pancake Tuesday. It's the day before the lent starts and most of the Irish people have pancakes on that day. We had Nutella, strawberries and cream to eat with the pancakes and I also tried one with lemon and sugar and it was actually really tasty.

Next month my parents and my sister are coming to Ireland to spend the Easter holidays here. We will spend the 2 weeks of the break together and I'm looking forward to it because we're going to travel around Ireland and see a lot of new things.
